

Live Net TV 4.5.1 APK Download: How to Watch Live TV on Your Android Device

Do you want to watch live TV on your Android device without paying any subscription fees or dealing with any registration hassles? If yes, then you should try Live Net TV, a popular app that lets you stream over 150 live channels from various countries and genres. In this article, we will tell you everything you need to know about Live Net TV, including its features, how to download and install it, how to use it, and its pros and cons.

What is Live Net TV?

Live Net TV is a rare find in this day and age. This app published back in 2018, offers live TV at just a few clicks. You don't need to undergo registration or a subscription. Just download the APK, install it, choose your country and start watching your favorites from amongst 150+ live channels.

Features of Live Net TV

Live Net TV has many features that make it stand out from other live TV apps. Some of its features are:

- It offers seven different categories of TV channels to choose from, such as sports, cooking, religion, news, kids, music, or entertainment.
- It supports four video players to watch with, though they recommend MX Player. You can also use external players like VLC or XPlayer.
- It provides channels that are available in both SD and HD quality. You can adjust the quality according to your internet speed and preference.
- It updates frequently to ensure that it changes dead links and includes new links. You can also report any broken links or request any missing channels through the app.
- It has Chromecast support that lets you stream from your phone to your television sets.
- It has a channel requesting feature that allows you to ask for your favorite channel if it is not available on the app. They will try to add it on the next update.
- It has a quick user support feature that lets you get help if you have any issues or questions about the app.

How to download and install Live Net TV 4.5.1 APK

To download and install Live Net TV 4.5.1 APK on your Android device, you need to follow these steps:

1. Go to the official website of Live Net TV or click on this link to download the APK file.
2. Once the download is complete, go to your device settings and enable the option to install apps from unknown sources.
3. Locate the downloaded APK file in your file manager and tap on it to start the installation process.
4. Follow the instructions on the screen and wait for the installation to finish.
5. Launch the app and enjoy watching live TV on your Android device.

How to use Live Net TV

Using Live Net TV is very simple and straightforward. Here are some tips on how to use it:

How to choose a country and a category

When you open the app, you will see a list of countries on the left side of the screen. You can scroll down and select any country you want. You can also use the search bar at the top to find a specific country.

On the right side of the screen, you will see a list of categories that you can choose from. You can tap on any category to see the available channels under it. You can also use the filter icon at the top right corner to sort the channels by genre, language, or quality.

How to select a channel and a player

Once you have chosen a country and a category, you can browse through the channels and tap on any one that you want to watch. A pop-up window will appear, asking you to select a player. You can choose from the four built-in players or use an external player if you have one installed on your device. You can also change the default player in the app settings.

After selecting a player, another pop-up window will appear, showing you the available links for the channel. You can choose any link that works for you and start streaming. You can also report any broken links or request any missing links through the app.

How to request a channel and get support

If you want to request a channel that is not available on the app, you can use the channel requesting feature. To do this, go to the menu icon at the top left corner and tap on "Channel Requesting". Then, fill in the required details such as channel name, country, category, and language. You can also upload a logo or a screenshot of the channel if you have one. Then, tap on "Submit" and wait for the confirmation message.

If you have any issues or questions about the app, you can use the quick user support feature. To do this, go to the menu icon at the top left corner and tap on "Support". Then, choose from the options such as FAQ, Report Channel, Contact Us, or Feedback. You can also join their Telegram group or Facebook page for more updates and information.

Pros and cons of Live Net TV

Live Net TV is not perfect and it has its own advantages and disadvantages. Here are some of them:

Pros

Free and easy to use

One of the best things about Live Net TV is that it is completely free and does not require any registration or subscription. You can watch as many channels as you want without paying anything or providing any personal information. The app is also very easy to use and has a user-friendly interface.

Wide range of channels and genres

Another great thing about Live Net TV is that it offers a wide range of channels from various countries and genres. You can watch sports, news, entertainment, music, cooking, religion, kids, and more. You can also find channels in different languages such as English, Hindi, Arabic, French, Spanish, etc.

Compatible with various devices and players

Live Net TV is also compatible with various devices and players. You can watch it on your Android phone, tablet, TV box, Firestick, or Chromecast. You can also use different players such as MX Player, VLC Player, XPlayer, or any external player that you have installed on your device.

Cons

Some channels may not work or be region-locked

One of the drawbacks of Live Net TV is that some channels may not work or be region-locked. This means that you may not be able to access some channels depending on your location or internet connection. You may also encounter some buffering or lagging issues while streaming.

Some ads may be annoying or intrusive

Another drawback of Live Net TV is that some ads may be annoying or intrusive. The app relies on ads to generate revenue and keep it free for users. However, some ads may pop up frequently or cover the whole screen while watching. You may also see some adult ads that may not be suitable for children.

Some content may not be legal or safe

The last drawback of Live Net TV is that some content may not be legal or safe. The app does not host any content itself but provides links from third-party sources. Therefore, some content may violate copyright laws or contain malware or viruses. You should always be careful while downloading or streaming anything from unknown sources.

Conclusion

Live Net TV is a great app for watching live TV on your Android device without paying anything or registering anywhere. It has many features that make it stand out from other live TV apps such as its wide range of channels and genres, its compatibility with various devices and players, its channel requesting and user support features, and more. However, it also has some drawbacks such as its unreliable links and channels, its annoying ads, and its questionable content

Therefore, you should weigh the pros and cons of Live Net TV before using it. You should also use a VPN service to protect your privacy and security while streaming. Live Net TV is a good option for watching live TV on your Android device, but it is not without its flaws.

FAQs

Here are some frequently asked questions about Live Net TV:

1. Is Live Net TV legal and safe?

Live Net TV is not legal or safe in some countries or regions. The app does not host any content itself but provides links from third-party sources. Some of these sources may contain illegal or unsafe content that may violate copyright laws or contain malware or viruses. You should always be careful while downloading or streaming anything from unknown sources and use a VPN service to protect your privacy and security.

2. How can I remove ads from Live Net TV?

There is no official way to remove ads from Live Net TV. The app relies on ads to generate revenue and keep it free for users. However, some users have reported that using an ad blocker app or a modded version of the app can help reduce or eliminate ads. However, these methods are not recommended as they may cause the app to malfunction or expose you to security risks.

3. How can I update Live Net TV?

Live Net TV updates frequently to ensure that it changes dead links and includes new links. You can check for updates by going to the menu icon at the top left corner and tapping on "Check Updates". If there is a new version available, you can download and install it from the app itself. You can also enable the auto-update option in the app settings to get notified whenever there is a new update.

4. How can I watch Live Net TV on my PC or laptop?

Live Net TV is an Android app and it is not compatible with PC or laptop. However, you can use an Android emulator software such as BlueStacks, Nox Player, or MEMu to run the app on your PC or laptop. You just need to download and install the emulator on your PC or laptop, then download and install the Live Net TV APK file from the official website or this link, and then launch the app from the emulator.

5. How can I watch Live Net TV on my smart TV?

If you have a smart TV that runs on Android OS, you can watch Live Net TV on it by following the same steps as you would on your Android phone or tablet. You just need to download and install the Live Net TV APK file from the official website or this link on your smart TV, then launch the app and enjoy watching live TV.

If you have a smart TV that does not run on Android OS, you can still watch Live Net TV on it by using a device such as Firestick, Chromecast, or Android TV box. You just need to connect the device to your smart TV, then download and install the Live Net TV APK file from the official website or this link on the device, then launch the app and stream it to your smart TV.
